The WORLD

This represented a gain of about 22 per cent. on The WORLD'S 1915 showing.

But more important, it represented a gain of over 37 per cent. of all the space gained by the eight leading morning newspapers of New York City.

The WORLD'S Greatest Gains

were in lines that show how thoroughly confident the shrewdest advertisers of the country must be in the result-bringing power of WORLD advertising space.

These lines included among others-

None of these lines appeal to people who have no money to spend. In fact, the spending ability and inclination must exist and be well developed to make such advertising pay.

The Secret

of THE WORLD'S great pulling power is that it is a HOME newspaper.

Witness the above lines in which it made such gains in the six months from January to June inclusive, 1916.
